COMPASS

- Erik successfully sold two properties for me in a short-time period. He has excellent negotiation skill and financial network knowledge that help my potential buyers to close the deal. He is very responsive to my real-estate related questions and needs. He is a great realtor!

- Erik is extremely responsive. Calls and texts are answered immediately. He is also an excellent listener and asks the questions required to understand the client's needs. Erik gave me great advice on preparing my property for sale. I recommend him highly.

- We have used Erik several times for selling and buying and each time we have gotten more money than expected on our sales and decent offers when we have bought with the exceptional guidance from him. We are up in our years but yet Erik was a good source in any question that we had about buying or selling. The experience with him was amazing especially learning more of what we can do when selling or buying. He has a wealth of experience, and I am so glad we stuck to him on every transaction that we have been through because we have come out winners each time. If ever a question came up, he was on top of it. Got back with us within the hour if we had to leave a message. Awesome to say the least.

Use this guy, he is amazing.
